## First Fall Showing

**Velvet Hats for Autumn and Winter**  
**--Charming Models Attractively Priced**

Every day our Millinery Department is augmented by a large newly arrived shipment of Gage Hats; and the hats are hurrying out as quickly as they arrive, too. No woman will wonder at that when she tries on the very latest models—large picture hats of black velvet embroidered with French knots in colors—large flare hats are embroidered with white zephyr—hats in every shade and color to complete every costume—and so on in endless variety.  
Please come in and let us have the pleasure of showing all of these new models to you.  
Miss Gertrude Green in charge of our Millinery Department.

## The Show is On

We do admire the dashing style which gives to young men the opportunity for individuality and personality of appearance.
